to talk about  
**The Bristol Asperger Social Group**

The **Bristol Asperger Social Group** is an inclusive place to meet.

Currently there are three activities - the pub group, club /bands night and a creative writers group.

It is a charity developed to provide social contact for people who have a diagnosis or suspected diagnosis of Asperger syndrome or high functioning autism.

The group meets monthly to provide an opportunity to meet with other people (18 years and older) who have or feel they may have Asperger syndrome or high functioning autism.

There is no membership fee, all we ask is that new attendees are considerate of others and so help to make the group feel happy and safe for everyone.
